

TAROS 50.20 CD

Operation

- On / off control manual via multi-function button
- Cutout manual via reverse button when overloaded

Equipment

- LEDs for blockade, bin full and door open
- Dustproof enclosure - mounted on rollers for flexible use
- Two large-volume catchbasket with changeable, environmentally acceptable PE bag

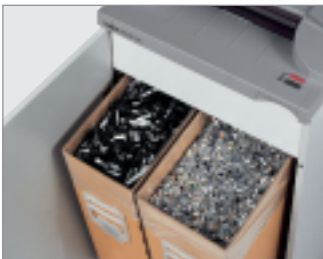

Technical features

- Electronics controlled by micro-controller
- Cutters made of solid, hardened special steel
- Mains disconnection switch

For CDs / DVDs and 3.5" floppy disks

Each medium is inserted individually in the appropriate feed slot and is shredded into small particles within seconds

Ecologically acceptable - two collecting bins are a standard feature of the TAROS 50.20 CD shredder
